If the emergency exceeds one day the union has the right to dispatch a journeyperson to the site. Employers shall have the right to take apprentices already in their employ to out of town locations.

2.04 (a)

If the employer fails to lay off the provisional worker after 48 hours as agreed, the Union has the right to send an equal number of employees to replace the provisional worker with all costs to the employer.

The employer will provide the name, address, SIN number, the date hired and the jobsite location (project) to the Union for each provisional worker hired. Upon receiving this information, the Union will provide the provisional worker with a work permit, in accordance with Article 2, paragraph 2.01 (c), which will be carried by the provisional worker for identification purposes. All new probationary apprentices approved by the Union shall have taken courses as required by the Ministry of Labour for the construction industry including but not limited to WHMIS and Working at Heights. The course(s) shall be as approved by the Ministry of Labour. Upon agreement between the Union and the employer, training by the Union may be waived. In this case the employer shall be responsible for this training and shall provide the training documentation to the MIAO, before the probationary apprentice may be engaged on a construction site.

2.06

It is agreed that members of the Union shall not refuse to work on the grounds that the employer has hired non-union workers, provided that the provisions of Article 2, paragraphs 2.04(a) through (i) have been met by the employer.

2.10

The Union and employer will co-operate in placing, on suitable projects, certain senior members of the Union.

2.11

When an employee ceases to be employed, the Employer shall notify the Union within two (2) business days by email at officers@insulators95.com.

The Union shall not dispatch an employee as a "name hire" prior to receiving such notification.

2.12

If upon re-hire the employee has continuing issues with absenteeism and/or time keeping this will result in increasing the period to twenty-four (24) months or longer.

Overtime rates apply only to the day Canada Day is observed on.

3.03 (c)

If local job conditions warrant in areas where it is not practical and/or economical for employees to return to their homes on weekends, arrangements may be made by mutual agreement between the employer, the job foreperson and the Union to work in excess of thirty-six (36) hours per week at straight time rates. These hours so worked in excess of thirty-six (36) hours per week shall be accrued and paid to the employee (at straight time) as time off with pay.

The remittance will be made up as follows:

16.02 (b) (i)

At any month end, when the net assets exceed the net liabilities of the Living Allowance Trust Fund by more than **\$5,000,000** the Board of Trustees shall decrease the contribution by \$0.25 per hour from both the employees and the employer for a total decrease of \$0.50 per hour to the fund. For any change in funding rate the Trustees shall provide the required 60 days' notice to the MIAO and Local 95 offices.

16.02 (b) (ii)

At any month end, when the net assets exceed the net liabilities of the Living Allowance Trust Fund by less than **\$1,000,000** the Board of Trustees shall increase the contribution by \$0.25 per hour from both the employees and the employer for a total increase of \$0.50 per hour to the fund. For any change in funding rate the Trustees shall provide the required 60 days' notice to the MIAO and Local 95 offices.

16.02 (b) (iii)

The Trustees shall monitor the fund on a regular basis and should the fund remain above the high limit set in article 10.06 (b) (i) or below the limits set in article 10.06 (b) (ii) they shall at their discretion make further increases or decreases to the contribution rate for both employees and employers.

16.03

All employers shall report the hours worked for each Eligible Person on the forms supplied. These hours multiplied by the amount specified in Article 16, paragraph 16.02 shall be the amount of the cheque made payable to "Insulators Local 95 Living Allowance Trust Fund". The hours and the cheques shall be submitted to the Administrator of the Fund (Benefit Plan Administrators Limited or Successors) on or before the fifteenth day of the month following the month in which such hours are worked. 16.05 (a)

Where an employer is in arrears with the payments and/or reports and/or notification of employees to receive living out allowance from the Fund, the Administrator shall notify the delinquent employer by registered mail. If such arrears are not received within seven (7) days from the date of mailing the registered letter, the respective employer forthwith becomes liable for payment of such living out allowance to the Eligible employees in place of the Fund. The Trustees and the Union may, without further notice, take whatever action is necessary against such employer to enforce payment in accordance with this Collective Agreement. The Union may withdraw all union labour from such delinquent employer until such time as the Union is advised by the Administrator that all arrears and/or reports and/or notification of Eligible persons to receive living out allowance have been received. The action by the Union of withdrawing labour under these conditions shall not be deemed to be a violation of any Article of this Collective Agreement, and all employers specifically agree that no legal action will be taken against the Union as a result of compliance with the terms of this Article.

16.05 (b)

In addition to any other methods of securing payments required under Article 16, which may be found elsewhere in this Collective Agreement, the following shall also apply:

- (1) The trustees may require a delinquent employer to pay for the costs, legal or otherwise, of collecting the amount owing.
- (2) Notwithstanding (1) above, there will be a surcharge of **fifty dollars (\$50.00) or ten percent (10%)** of the amount owing, whichever is the greater, for all payments not received by the Administrator of the Funds, (Benefit Plan Administrators Limited or successors) by the 22nd day of the month in which the payment is due. This surcharge applies only to any and all arrears of the monthly remittances, and applies only once to the remittance for each month.
- (3) The imposing of the surcharge the first time is at the discretion of the Trustees, thereafter it shall be automatically imposed.

16.06

LETTER OF UNDERSTANDING #110R2

Stabilization Program

Purpose: To stabilize the insulation industry for employees and employers with a cost competitive package against non-union competition during the tender stage of a project for construction, maintenance or asbestos removal.

Methods: The method of cost reductions may be derived from any of the following or any combination of:

- 1) Site specific changes to the collective agreement concerning wage rates, living allowance & travel, apprentice ratios, overtime rates, hours of work, or any other changes that Local 95 may be willing to provide.
- 2) Subsidization from the Market Recovery Fund.
- 3) Subsidization from the Living Allowance Fund.

Criteria: The extent of subsidization will be determined by Local 95 based on the following parameters:

- 1) All Employers with at least 5,000 man hours in the preceding calendar year will be eligible for any method or any combination of methods of cost reductions that Local 95 may be willing to provide.
- 2) All Employers with less than 5,000 man hours in the preceding calendar year, will also be eligible for any method or any combination of methods of cost reductions that Local 95 may be willing to provide, providing that they hire a minimum of one journeyman to work on the subsidized project for the duration of the job.
- 3) All Employers with less than 5,000 man hours in the preceding calendar year and who do not hire a minimum of one journeyman to work on the subsidized project, for the duration of the job will be eligible for certain methods of cost reductions, that Local 95 may be willing to provide.

Limitations:

- 1) Stabilization from the Living Allowance Fund shall only apply where room and board and/or travel expense eligibility exists. Stabilization from this fund will be made directly to the employee on application.
- 2) Employers not using a formal Bid Deposit System or an informal Bid Deposit System, that is in place for tender closing for a stabilized project, will not be eligible to utilize any form of stabilization benefits provided for on that particular stabilized project.
- 3) Employers applying for Stabilization must be current in payments for pension and benefits on date of project closing and on date of payment application.

Procedures:

- 1) An Employer who has valid reason to believe they are competing against a non-union company may apply for competitive assistance from the Stabilization Program by submitting, by facsimile or email, a completed Schedule "A" to Local 95. A copy shall also be sent, with hours blanked out, by facsimile or email to the MIAO office.
- 2) It is agreed by all parties that post tender stabilization shall not occur under any circumstances.
- 3)
 - i) The completed Schedule "A" should be received by Local 95 and the MIAO office no later than 72 hours prior to the tender closing time of record to be considered.
 - ii) If due to circumstances beyond the Employers control, there is a request for Stabilization received less than 72 hours before closing then Local 95 may still opt to review the project for Stabilization.
 - iii) Under no circumstances will Stabilization be considered less than 24 hours prior to the tender closing of record.
- 4) Local 95 shall provide details of the Stabilization by facsimile or email to the MIAO office no less than 24 hours prior to the tender closing of record, numbered for reference, on a Schedule "E". Schedule E's and or stabilization details that are sent directly to Employers from the Union shall not be valid without expressed permission from the MIAO office or MIAO President.
- 5) A copy of Schedule "E" indicating the details of the Stabilization will be circulated by facsimile or email, a minimum of 24 hours before the closing time to all Employers who provided a completed Schedule "A" or have requested a Schedule "E" prior to tender closing.

Procedures Continued:

- 6) When an Employer is successful in procuring a Stabilized project they shall complete the Employer portion of a Schedule "F" and along with a copy of a Purchase Order or Subcontract with monetary references blanked out, they shall send both documents by facsimile, email or courier to the MIAO office.
- 7) The MIAO shall then check that the Schedule "F" conforms to procedures as set out in this document. The MIAO Manager or other designated MIAO employee shall sign and forward to Local 95 along with the Purchase Order copy.
- 8) Local 95 shall, upon agreeing to its validity, sign and send a copy of the completed Schedule "F" to the Employer, and the Benefit Plan Administrators whenever "LATF" is used as stabilization assistance. Invoices for subsidy fund portions of Stabilization shall be remitted to Local 95.
- 9) Stabilization assistance may be revoked at any time if it has been found that the Employer has knowingly provided false information on their Schedule "A".
- 10) MIAO members agree to share bid award information on projects receiving stabilization with Local 95 when they become available.
- 11) Local 95 shall provide records to the MIAO to verify the terms, conditions and payments were made in accordance with those listed in Schedule "E".

Disclaimer:

- 1) The MIAO and Local 95 will make every effort to process requests for Stabilization in a fair and equitable fashion in accordance with the procedures as set forth herein. However, it is incumbent on all Employers to ensure that they inform the MIAO and Local 95 of their intention to bid a project and that they remit and receive the relevant forms for Stabilization. The MIAO and Local 95 accept no responsibility for any inadvertent omissions.
- 2) It is incumbent on all Employers to determine prior to closing the availability of stabilization for a project. If the Employer does not contact the MIAO for confirmation and terms of subsidy available, they shall have no recourse to either the MIAO, Union or stabilization fund.

LETTER of UNDERSTANDING #113R2

Article 6.05 PROCEDURES

- 1) It is not the intent of this document to interfere with the right of Local 95 to file a grievance or negotiate a settlement in satisfaction of an infraction of the Collective Agreement. It is solely the intent of this document that Article 6.05 is implemented in a fair and proper fashion. All Employers have the right to request a Veto Committee review of the inclusion of 6.05 in their grievance.
- 2)
 - i) Local 95 to advise the Employer and MIAO by courier or registered mail prior to filing any grievance, or prior to any negotiations of settlement for any infraction or violation of the Collective Agreement against one or any MIAO employers, including but not limited to those that may be associated with cause to invoke Article 6.05.
 - ii) The preliminary information provided by Local 95 to the MIAO shall only be used to determine the implementation of Article 6.05. Local 95 retains the right to file and pursue a grievance for damages in cases where the MIAO has decided to veto the implementation of Article 6.05.
 - iii) Whether Article 6.05 is involved or not, the MIAO retains the right to defend any grievance involving their employer member(s).
- 3) Local 95 agrees it shall deem to invoke and apply article 6.05 to each and every grievance and/or settlement in satisfaction of an infraction or violation for the use or employment of non-union workers for the roles of work and application of insulation and/or accessories as detailed and described in the preamble of the Collective Agreement.
- 4) Local 95 acknowledges the right of the MIAO to veto any implementation of Article 6.05 to any grievance or any settlement the Union may negotiate or impose on any signatory employer for any infraction or violation of the Collective Agreement regarding the alleged use or employment of non-union workers.
- 5) Local 95 and the MIAO agrees that the penalty as set out in the Collective Agreement is not to be varied from, discounted, or levied in part, as penalties imposed and sought for collection in satisfaction of any grievance or in satisfaction of any settlement where Article 6.05 is deemed to apply within the Collective Agreement or it's Letters of Understanding.

- 6) The MIAO agrees to consider any and all veto of the 6.05 portion of a grievance it deems to review, based solely on its intent of application, and shall not distinguish validity in any way based on extent or scale of the infraction nor by whom the subjects are. The status, record, or reputation of any or all subject employers shall not consider in the veto review process.
- 7) Where the MIAO exercises its right to veto and instructs the Union of its intent to veto the Article, the Union shall not seek penalty as Article 6.05, and shall advise any adjudicator(s), mediators, or persons of decisive authority "that it does not pursue nor deem the Article to apply". The Union may proceed to pursue a grievance or settlement seeking alleged damages other than imposition of Article 6.05.
- 8) The Union agrees to provide the MIAO its evidence for all and any grievances or settlement attempts for any infraction of any Article within the Collective Agreement, and to allow 20 working days from the MIAO's receipt of such evidence for the MIAO to complete its review prior to filing a grievance or prior to seeking or negotiating a settlement in regard to the alleged infraction. Where Article 6.05 is attached to a grievance any settlement shall include the full assessment of 6.05. The MIAO agrees to extend the grievance period under Article 6.04 equal to the number of days required to complete the review.
- 9) The MIAO shall make every attempt not to name nor provide information that may disclose the identity of a subject employer nor the identity of the review committee during any review procedure. The Union shall provide its information and without naming the subjects, the project, or its witnesses. The Union agrees however, to provide the MIAO manager by means of verbal discussion, the name of the subject Employer, the name and location of the project; for the managers purpose of correctly relating the evidence and information to the correct subject and case, as well as for the purposes of correct implementation of MIAO procedures for appropriate selection of the review committee.
- 10) Both parties agree that the sole intent of Article 6.05 is to provide by means of its enforcement, a more severe and successful deterrent than mere awarded damages to the penalty of any practice by any signatory employers to use non-union persons to perform work with the competitive advantage in any form or scale that is contrary to the work the Collective Agreement describes and is intended to include.
- 11) All fines collected by enforcement of Article 6.05 will be placed in a trust fund and administered as per Article 6 of the Collective Agreement. Money in the trust fund shall be used to assist in covering the costs incurred relating to Article 6.05.
 - a) The Union shall provide to the MIAO, proof of all collected monies imposed by Article 6.05 and an accounting statement of all monies due and unpaid. All collected funds shall be deposited in a Union / MIAO joint bank account controlled by the Trustees.

b) When all monies are collected from each imposition, or when the subject employer has ceased operations, those funds plus any earned interest shall be paid to the Union to assist in the cost of enforcing this article.

c) The first monies collected on any judgment / settlement involving Article 6.05 up to the penalties as set out in the collective agreement, shall be deemed to be the Article 6.05 fine and shall be deposited into the trust fund.

EFFECTIVE: May 18th, 2025 to April 30th, 2028

PREAMBLE

THIS AGREEMENT made as of the 18th day of May, 2025 by and between:

THE MASTER INSULATORS' ASSOCIATION OF ONTARIO INC.,
(hereinafter called "the Association"),

- and -

INTERNATIONAL ASSOCIATION OF HEAT AND FROST
INSULATORS AND ALLIED WORKERS, and THE
INTERNATIONAL ASSOCIATION OF HEAT AND FROST
INSULATORS AND ALLIED WORKERS, LOCAL 95,
(hereinafter called "the Union"),

WHEREAS the parties have entered into a provincial collective agreement dated May 18th, 2025 and herein after referred to as Construction Agreement and whereas Article 1, paragraph 1.02 (a) of such agreement permits work to be performed under a Maintenance Agreement and whereas the parties have agreed to the terms of a Maintenance Agreement.

This Appendix covers all maintenance work, as defined herein, performed by an Employer bound to this collective agreement, regardless of whether such work is or as determined (by the Ontario Labour Relations Board or other competent authority) to be in the ICI sector of the construction industry.

The parties agree to enter into a collective agreement with respect to all maintenance work.

NOW THEREFORE, THIS AGREEMENT WITNESSETH:

ARTICLE 1

DEFINITION OF MAINTENANCE WORK

1.01

Definition of maintenance work:

- (a) Maintenance shall be work performed for the repair, renovation, revamp and upkeep of property, machinery and equipment within the limits of the plant property.
- (b) All work performed by the employer on existing equipment and machinery, including all associated work in a given plant, shall be maintenance. This shall include replacement of existing individual items of machinery and equipment with new units, including all associated work. It is understood that this concept would not include replacement of an entire process system installation in a plant in order to increase production.
- (c) Addition of spare machinery or equipment may be done under maintenance agreement provided it is for debottle-necking purpose. Example: There are two existing pumps. Both pumps are required to run at all times to maintain full production. A spare may be added for the purpose of having one pump down for maintenance.
- (d) Changes to existing units for reason of feed stock changes or fuel changes shall be maintenance.
- (e) The interpretation of maintenance work shall be in accordance with the General Presidents' Committee for Contract Maintenance in Canada.
- (f) The word *repair* used within the terms of this Agreement and in connection with maintenance, is work requested to restore by replacement or by revamp of parts of existing facilities of efficient operating conditions.
- (g) The scope of this Agreement does not cover work performed by the Company of a new construction nature which is work required to erect new facilities in which event the work shall be done in accordance with Construction Agreement.
- (h) The Union and the Company understand that the Owner may, at his or her discretion, choose to perform or directly subcontract work for any part or parts of the work necessary in his or her plant.
